

# **FOREWORD**

"SCOUTS ON STAMPS OF THE WORLD" 1986 Edition

The First Edition of SCOUTS ON STAMPS OF THE WORLD was published in 1949 by Harry D. Thorsen, Jr., then a Scoutmaster in Oak Park, Illinois. Included were illustrations of 83 different stamps, issued by 16 countries. Subsequent editions were published in 1955, 1964, 1968, 1973 and 1979, with Harry co-authoring each of these editions.

In 1951 Harry D. Thorsen, Jr. founded the Scouts on Stamps Society International and became its first president. Over the years since then, more than 6,100 Scout stamp collectors have been members of the Society.

This, the 7th Edition of SCOUTS ON STAMPS OF THE WORLD includes more than 2,000 stamps from 200 issuing authorities.

While there have been disputes as to what constitutes a Scout stamp, the general rule is that the postal issue depicts, honors or commemorates the Boy Scout, Girl Scout or Girl Guides nationally or internationally; some Scouting event or activity; or some individual who has given outstanding service to Scouting. Since the ideals of Scouting can exist only in the free world and in non-communist countries, issues from communist countries are of questionable status.

The authors and editors have no desire to tell the reader what to collect, and have elected to inform the collector of the existence of all known issues.

I sincerely regret that co-author William E. Hoffmann passed away before the publication date. Bill was a lifelong Scouter and philatelist, a Past President of SOSSI, a good friend and one whom I had the honor of appointing an Honorary Director of SOSSI. Bill contributed greatly to this edition of SCOUTS ON STAMPS OF THE WORLD and to the two previous editions.

Each stamp is identified by its Scott Catalog number, unless otherwise indicated.

The authors and editors of SCOUTS ON STAMPS OF THE WORLD wish to acknowledge their sincere appreciation to all members of SOSSI who have contributed material and suggestions in the production of this edition.

William Parkin, Past President, SOSSI

This edition of "Scouts on Stamps of the World" has been completely rewritten and contains information about and illustrations of issues of stamps related to the Boy Scout and Girl Scout/Girl Guide movements of more than 200 countries and states of the world. The first edition of the book published in 1949 by Harry D. Thorsen, Jr. showed only 16 countries with Scouts on Stamps issues. Up-dated editions were published in 1955, 1964, 1968, 1973 and 1979. This new book presents the latest authentic information available on all Scouts on Stamps issues released up to the end of 1985. The chronological loose-leaf format will make it a most useful resource to both collectors and students of Scout philately.

This edition includes a special section on Scout Postal Stationery which has been researched and prepared by John B. Adams.

The photographs in this edition include many which were in the 1979 edition; some of which were taken by T. P. McDermott. The major portion of the photographs were taken by William Parkin.

#### **Status of Issues**

Differing opinion as to status of this issue because of one or more of the following reasons: —

- 1. some collectors do not feel that this is a "Scout" issue
- the number of stamps issued far exceed the postal needs of the issuing country
- the values of the stamps serve no practical use in the country's rate structure (usually including one or more exceptionally high values)
- the government of the issuing country does not recognize the stamps.
- 5. issuing practices and policies that are abusive (aimed primarily at the stamp collector's pocketbook)
- this issue was not both

   (a) printed by the government or by government contract,
   and (b) issued or sold by the government.

## **NOTES**

## SCOUTING POSTAL STATIONERY

## John B. Adams, Assistant Editor

A stamp is a design imprinted onto paper. Actually, only the ink is the stamp. A stamp may be a cancel (e.g., a "handstamp" or a rate stamp) or a design which incorporates prepayment. The paper which incorporates a stamp of prepayment is either postal stationery or an adhesive stamp. And it may be the face and/or the back of the item which is stamped by the government.

Postal stationery items are similar to regular stationery, except that the former have a franking imprint incorporated into the design. This includes envelopes, letter sheets, letter cards, aerogrammes, postal cards, newspaper wrappers and bands, and many ancillary items such as postal savings envelopes, pneumatic stationery, parcel post stationery and money order cards.

Those items currently known which have a Scouting relationship are: postal envelopes, postal letter sheets, postal aerogrammes, postal cards, and parcel post stationery.

In many cases, postal stationery designs are exceedingly well done because the artist has ample space in which to work, not being restricted by the dimensions associated with an adhesive stamp, and can use a large portion of the stationery to carry out the theme.

In the U.S.A., the upper right corner design of postal stationery, which usually incorporates the prepaid postage, is not considered a separate or removable stamp. Postal regulations do not allow this indicium to be cut out and used on other stationery for prepaid postage.

Higgins and Gage numbers are used unless otherwise indicated, and refer to the system of numbering used in the Higgins and Gage "World Postal Stationery Catalog" published by Classics Philatelics. Many of the newer items do not have assigned H&G numbers as yet, and will not have until their respective sections of the catalog are updated. Since postal stationery publishing can be infrequent, when another major catalog has listed Scout postal stationery, the name of the other catalog and the catalog number is given. Other catalogs referenced, and the abbreviation for them, are:

Catalog	<b>Abbreviation</b>	Full Title
Kessler	K	"Catalogue of Aerogrammes"
Michel	M	"Privatganzsachen Katalog"
Ruch	R	"Katalog Specjalizowany Znakow
		Pocztowych Ziem Polskich"

In this section, the Selling Price is defined as the price charged by the government post office and includes an additional charge added to the face value. "FDI" means first day of issue.

The three 1964 Dubai postal card sets were issued the same day. They are listed below in the order found in the H&G catalog; examination shows that the first set of 3 has clearer definition and design than the other sets. This order may be different from that listed by some sellers of Scout stamps.

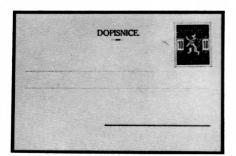

Thanks for information about Scout postal stationery items to the following:

Joe Bieniecki, Jan Dvorak, Patricia Feiner, Steinar Halvorsen, George V. Holland, Philippe van Hille, Jan Jelinek, Frederick P. Lawrence, Barry Mann, Wayne Menuz, Carlos C. Swanson, Arkadiusz Walinski, and William G. Wells.

Just as there are many adhesives which can be marginally considered to be Scout stamps, so there are many postal stationery items which are of a questionable nature. The author is eager to learn of any issues which readers consider to be properly includable as Postal Stationery. Readers are invited to write to John B. Adams, P.O. Box 2914, Sacramento, CA 95812. Please be explicit concerning your reasons for asking for the inclusion of the particular item(s) and send photocopies of the item(s). It will be helpful if you include information relating to the date of issue, as well as other information which you may have.

(1) The design shows Borah Peak, the Lost River Range, and the Scouting fleur-de-lis emblem.

(2) Missing colors known: (a) blue and black omitted; and (b) red and yellow omitted.

(3) This postal card was a belated compromise by the U.S. Post Office to commemorate the XII World Boy Scout Jamboree, as the U.S.P.O. had issued adhesives for the Boy Scouts in 1950 and 1960, and wasn't interested in a further issue. The USA 1967 stamp program was announced without including a Scout issue. Carl Rueth, Editor of "Linn's Stamp Weekly" suggested a commemorative postal card, and the card was announced in May, only 3 months prior to issue.

This was the first Scout postal card for a World Boy Scout Jamboree.

The postal card was valid for postage to Canada and Mexico, in addition to all points in the USA and possessions.

The card indicium was the largest the USA had issued to this time in 1967, measuring almost 21/2 inches wide.

(4) There exists a first day ceremony program, 8½" x 11", listing notables expected to be in attendance. There also exists a postal announcement sheet, 81/2" x 11"

(5) There were 451,585 first day cancels.

Comments:

(1) The Scout movement as known in the free world was completely forbidden in Poland immediately after World War II, and in 1946 the Zwiazek Harcerstwa Polskiego (Z.H.P.) was changed and modeled on the Russian Pioneer movement. This was greatly disliked by the Polish youth, and caused a large loss of Scouting membership and support. In 1956, the Hungarian revolution took place, as did major changes in other East European Communist nations. As a result, at that time, the Z.H.P. in Poland went back to much of its pre-war uniforms, badges, and traditions.

(2) This postal card shows the Polish

Scout Cross.

# An Invitation TO BECOME A MEMBER OF

## THE SCOUTS ON STAMPS SOCIETY INTERNATIONAL

#### THE SCOUTS ON STAMPS SOCIETY INTERNATIONAL

The Scouts on Stamps Society International is a non-profit organization composed of philatelists who specialize in stamps relating to the Scout Movement. Although the majority of its members belong to some Boy or Girl Scout Association, or have at some time been related to Scouting, SOSSI is a philatelic society, completely independent of any of the World Scout Associations, and not a Scouting organization.

The purpose of the society is to assemble facts regarding stamp issues which honor the Scout Movement and to promote interest in Scouts on stamps among stamp collectors. Through this interchange of ideas among SOSSI members from many countries it is inevitable that there will develop a spirit of international good will.

#### SIGNIFICANCE OF SCOUTS ON STAMPS

It is well known to stamp collectors that the stamps of a country have the secondary purpose of displaying important events, ideas, people, buildings and places. In doing this, they often show to the public an illustrated history of the country. In like manner the countries of the world which have issued stamps to honor the Scout Movement have given to us an illustrated history of the events and development of Scouting in those countries. It is this that makes collecting Scout stamps the interesting topic that it has become. Research into the background of these stamp issues has been one of the objectives of the Scouts on Stamps Society International. As a result there has been built up a fine lot of resource material for SOSSI members. Access to this material is one of the advantages of membership in the society.

#### STEADY GROWTH IN **SCOUTS ON STAMPS ISSUES**

When the Scouts on Stamps Society International was organized in 1951 with ten charter members, there was a record of only 78 different stamps issued by 16 countries to honor Scouting. At present more than 2,000 stamps of this type have been issued by more than 135 countries. There has been growing acceptance of these issues among topical collectors. Countries have been quick to recognize this. There has also been a growing respect by countries of the values inherent in the programs of the national Scout organizations. We are now celebrating the 75th Anniversary of the World Scout Movement, an event which is proving most popular philatelily. There is every indication that all of these factors will persist and that we will see many more Scout issues in the future.

#### THE SOSSI JOURNAL

The SOSSI Journal is a monthly publication which is sent to each member of the society. Through the Journal, members are kept informed concerning new issues as they are reported. Through research, members are continually coming across hitherto unknown facts about many of the Scout issues and these facts are published in the Journal. This has been especially true of the so called classics issued during the early days of Scouting. The journal also has the important function of carrying advertising by Scout stamp dealers, as well as the SOSSI Sales Service.

#### **HOW TO JOIN SOSSI**

Membership in SOSSI is open to any person young or old who is interested in the topic Scouts On Stamps. Membership in a Scout organization is not a requisite to membership in SOSSI. The dues schedule is \$7.50 for members in the USA, \$10.00 for all other countries, and an additional \$10.00 for airmail shipment of the Journal.

This entitles the member to receive the SOSSI Journal. The application must be signed by another SOSSI member as sponsor. Payment must be in United States funds. Members from other countries should make payment by International Money Order or by bank checks payable by a United States bank. Checks should be made payable to the Scouts on Stamps Society International.

#### SPECIAL SCOUT CANCELLATIONS

There has been a growing tendency on the part of many countries to authorize special Scout cancellations to be used in honor of Scouting events both local and national. Sometimes these are used in conjunction with regular issues. These attractive cancellations have become a very popular sideline with many collectors. A committee of SOSSI is presently specializing on research of these cancellations and illustrates them in the pages of the Journal.

#### SCOUTING SEALS

Another related item which is of special interest to many collectors are the colorful seals which are sent out by many Boy and Girl Scout Associations on the mails going out of their offices to call attention to some special Scout activity or event. The Journal tries to keep our membership informed on new issues of seals.

#### THE ORGANIZATION OF SOSSI

The officers of SOSSI are a president, four vice-presidents, an executive secretary, a corresponding secretary, a treasurer, and a slate of directors. When a number of members live within a few miles of each other the society urges that a chapter be organized which gives the opportunity for members to get together for discussions and swapping which is the boon for all collectors. Much of the work of the society is accomplished through committees appointed by the president.

# SCOUTS ON STAMPS OF THE WORLD

BY

# HOWARD J. KAPLAN and

WILLIAM E. HOFFMANN

**Assistant Editors** 

WILLIAM PARKIN JOHN B. ADAMS WILLIAM C. COWEN

This edition of "Scouts on Stamps of the World" has been completely rewritten and contains information about, and illustrations of, issues of stamps related to the Boy Scout and Girl Scout/Girl Guide movements of more than 200 countries and states of the world. The first edition of the book, published in 1949, by Harry Thorsen, Jr., showed only 16 countries with Scouts on Stamps issues. Up-dated editions were published in 1955, 1964, 1973, and 1979. This new book, and its supplement, presents the latest authentic information available on all Scouts on Stamps issues released up to the end of 1987. The chronological loose-leaf format will make it a most useful resource to both collectors and students of Scout philately.

This edition includes a special section on Scout Postal Stationery which has been researched and prepared by John B. Adams.

The photographs in this edition include many which were in the 1979 edition; some of which were taken by T. P. McDermott. The major portion of the photographs in the edition were taken by William Parkin and the photographs in the supplement were taken by Bill Cowen.
